DATELINE: Lone Palm Ferry Condos, Omaha, NE
DATE: 12 August 2045
RE: *Press Conference to announce the grand opening date for the new Lone Palm Ferry Casino.*
BY: *Reuters North-West Coast Region Bureau Chief, Mister Chad Evans.*

In proud partnership with the Gallery at Giovanni Metro Station, the Lone Palm Ferry Casino's Lease Management is excited to present the casino's Multiverse Murals, which were commissioned from the renowned artist known as Emil to celebrate the

completion of their new waterfront condominium expansion and casino. This project not only highlights their commitment to art and culture, but also serves as a vibrant addition to the architectural landscape of the region. Reflecting the diversity and multifaceted nature of our world, they claim that the murals create a unique atmosphere that invites visitors to immerse themselves in new experiences.

“We believe that this artistic expression will become an important part of our community, inspiring both locals and tourists.”

At a press conference held at the Dhegihan-Siouan Tribal Administration Center, tribal officials and outside investors held a lengthy press conference, complete with an impressive buffet.

The event was dedicated to celebrating the upcoming grand opening of the

Lone Palm Ferry Casino and beach complex, as well as the new luxury condominiums, which are expected to become a major employment center for the entire Omaha community.

Participants discussed the potential impact of the new project on the region’s economy, emphasizing its role in creating new jobs and developing infrastructure, which in turn will contribute to improving the quality of life for local residents.

The tribal fathers said the casino will create thousands of new jobs in Omaha's severely depressed job market. They said the first phase of hiring will include more than 500 entry-level positions in the culinary and service industries while verifying that all of these positions will be open to all legal residents of Omaha regardless of tribal status or not.

Recruitment for the positions will begin early next week at the Tribal Government Center, giving local residents a chance to find work amid economic uncertainty.

At this point, one of the reporters, who was not local, decided to interrupt the press conference by loudly asking about the meaning of the term "Legal Resident."

The project coordinator in charge of employment took this interruption with restraint and explained that the Tribal Council was following the COG Regional Commander's order that refugees from the Southland should not be encouraged to settle in the community.

This was due to the COG Command's intention to relocate all illegal immigrants from the Nebraska Gold Coast, and therefore residents of the

Southlander's refugee camps could not be considered for employment. After completing his response, he referred the reporter to the COG Regional Military Command in Sioux City for further information.

The tasteless question arises in light of recent Anti-COG, Events in Omaha, accompanied by completely unjustified treats of further protests and more aggressive threats of boycotts by a small group of fringe refugee fanatics from the neighboring Southlander's refugee camp, there is serious concern. These individuals have also, baselessly, attempted to disrupt this press conference with a small group of violent protesters who have declared the mural artist Emil to be a satanic demon who also suffers from a "sinful" addiction to red curry pancake paste, which, according to the corrupt New Tulsa Government, has been classified as a controlled substance.

The tribal fathers stated that such an accusation not only violates the foundations of justice, but also jeopardizes the reputation of a person who may simply be looking to support the community in difficult times while adding: *"It is important to understand that such actions can have serious consequences for society as a whole, and we will not allow foreigners to spread hatred and misunderstanding about one of our noteworthy citizens."*
The Dhegihan-Siouan Tribal Council has warned potential protesters that the Lone Palm Ferry condominium and casino complex is located entirely on tribal land, as confirmed by both the Regional COG (Government Continuity) Military Commander and the FEMA Refugee Command Center for the Southwest Coast of Nebraska while also noting that FEMA officials actually

leases the land on which the Southlander refugee camp is located from the tribal council.

Furthermore, they warn that any additional protests organized by refugees will be severely suppressed, and at the decision of the tribal council, participating protesters may find themselves quickly deported back to territories still controlled by the failing New Tulsa Government.

The new casino is scheduled to officially open within the next 30 days, and the grand opening promises to be packed with festive events and special discounts for all Omaha residents.

This event will be a great opportunity for locals to enjoy a variety of entertainment, including live music, artist performances, as well as various contests and games. In addition, the casino will offer exclusive promotions

that will allow visitors to take advantage of advantageous offers on slot machines, table games and other services at greatly discounted prices. All of these events will contribute to creating a festive atmosphere that will unite the community and give everyone the opportunity to feel the upcoming holiday spirit.
